github.com/Vaibhavmali17 | [Portfolio](#) | Dhule, Maharashtra

SUMMARY

Java Full Stack Developer (Fresher) skilled in Java, Spring Boot, React.js, JavaScript (ES6+), HTML5, and CSS3, with hands-on experience building secure, database-driven web applications end-to-end. Comfortable working across the stack, with a solid grasp of testing fundamentals and cross-browser, performance-focused development.

TECHNICAL SKILLS

Languages: Core Java, Java 8+, JavaScript (ES6+)

Backend: Spring Boot, Spring Security, Hibernate JPA, REST API, JWT, JDBC, Maven

Frontend: React.js, HTML5, CSS3, Bootstrap

Database: Oracle SQL, PostgreSQL, MySQL

Deployment: Railway (Backend + PostgreSQL), Vercel (Frontend), Environment-based Configuration

Integrations: Google Gemini API, Spring Mail, Git/GitHub

Testing & QA: STLC, Unit / System / Regression / Smoke / Sanity Testing, Test Case Design, API Testing (Postman)

Concepts: SDLC, Agile (Basic), OOP, Data Structures, Multithreading, Debugging

Soft Skills: Problem-Solving, Quick Learner, Adaptability

PROJECTS

Human Resource Management System (HRM Portal)

[Live Demo] [GitHub]

Spring Boot, React.js, PostgreSQL, JWT, Gemini API

- Built and **deployed a full-stack, role-based** HR management platform (Admin/Employee) covering employee records, leave, timesheets, recruitment, and performance reviews on a layered Spring Boot + React.js architecture.
- Implemented JWT authentication and Spring Security role-based access control (RBAC) to secure REST APIs, restrict cross-role access, and enforce hardened CORS and environment-based secret management.
- Integrated Google Gemini AI to build a context-aware chatbot that answers HR policy questions and retrieves real-time employee data (leave balances, pending approvals) directly from PostgreSQL.

Employee Management System | *Spring Boot, Hibernate JPA, PostgreSQL, REST API*

- Designed and developed a backend application using Spring Boot following layered architecture (Controller, Service, Repository).
- Created RESTful APIs for complete CRUD operations — adding, updating, retrieving, and deleting employee records.
- Implemented entity mapping and database integration using Hibernate JPA with PostgreSQL, with custom exception handling (ResourceNotFoundException) for structured, production-ready error management.

MovieSearch App – Movie Discovery Web App | *React.js, Axios, React Router, ES6+*

- Built a React SPA to search and browse movies using the OMDB REST API with React Router DOM for multi-page navigation.
- Used `useState`, `useEffect`, and `useRef` hooks to manage search state and API calls; created a custom hook to abstract API logic for reusable, cleaner code.

EDUCATION

Z.B.P. College, Dhule

06/2023 – 05/2025

Master of Science (Information Technology) — CGPA: 8.48 | 69.82%

Dhule

Z.B.P. College, Dhule

06/2020 – 05/2023

Bachelor of Science (Information Technology) — CGPA: 8.98 | 77.67%

Dhule

Higher Secondary Certificate (HSC)

2018 – 2020

Percentage: 68.77%

Dhule

Secondary School Certificate (SSC)

2018

Percentage: 83.80%
